

*Enver Hoxha*

"për një Shqipëri më të mirë"

"për bashkimin e vërtetë të kombit"

"për mbarëvajtjen e atdheut"

**Proletars of all countries unite!**

**16 Tetori**

**N. 2 November 2005**

**The Party of Labor of Albania (Gjirokastra)**

- **Two historical dates (November 7-th and 8-th)**

**On November 7-th 1917** Russian Proletars in leadership of the Communist Party throughout revolution took the Power to their hands from the bourgeois. This was a triumph not only for Russian People, but for the world working class and peasants.

The history has showed that the power from the bourgeoisie can be taken only with force. That is possible when in the head of workers and peasants are an M-L truthful party. The Power will be immortal when it is born from the working class and the peasantry and is in their service.

Peaceful way is only an illusion in present reality where big capital representatives are to do everything to don't let the power to the middle capital representatives and no more to the working class and the peasantry. The teaching of October Revolution are actually for them which are aspiring for truthfulness of the freedom, equality and rightness.

Transformations of Russia from a backward feudal bourgeois country to a developed country, and the heart of the world people was realized in leadership of Lenin and Stalin. The Hrushovites revisionists with their followers had destroyed socialist system in Soviet Union doing a big service to the international capital.

**On November 8-th 1941** Albanian communists with Enver Hoxha in head founded Communist Party of Albania. It organized the people in the struggle against Nazis and fascism till in full victory in November 29, 1944.

In leadership of CPA (Some years latter his name is change to Party of Labour of Albania.) in our country are realized transformations that didn't be imagined before. Up 80 % of the peoples were illiterate. Infectious diseases (malaria, zoo noses, tuberculosis, etc) were present everywhere. Middle life was 38 years.

On 1956 Albania has not yet more illiterates, no more malaria, syphilitic, and a very small people with infectious diseases. On 1960 the medical service was free for all people. It has been free only partly during the years 1945-1960.

The collectivization and industrialization created economic bases for further transformations to all the fields of the life. The Education, science, culture, electrification arrived greats transformations. The Albania was one from 10 countries in the world that on the end of the years '70 had one doctor for fewer than 1000 habitants and middle life was 72 years. On 1985 income for capita were 1700 \$ per year.

The renegade Ramis Alia and his collaborators destroyed socialism in Albania gradually with diabolic reforms so as the Hrushovites in Soviet Union. That is a good teaching for truthful communists how to protect the Party and the Power from fifth column and foreign enemies.

- **Colonizers out from Kosovo!**

Self-determination movement is wrestles with UNMIK forces in Kosovo. The leader of this organization Albin Kurti together with about 20 protestants is arrested from UNMIK polices. The protestants were seeking the moving away of new colonizers from Kosovo. The situation in Kosovo is in doorstep of a new insurgence to won independence want or no the west. That critical situation is declared of a journalist that has seen this reality everywhere in Albanian province which was divided from big imperialist Power on 1913 in composition of more than 2/3 of the Albanian territory and population. These parts of these territories today are in the composition of Montenegro, Macedonia and Greece. Up one hundred thousand Albanian are killed and massacred to our neighbor countries from chauvinist forces during 20-th century.

- **Cautiously with the Cameria ownership!**

Up 250.000 Albanians Cams are throwing out on 1946 from their house and motherland in Cameria province in North of Greece. They are stopped to return

till now in their house with the absurd pretend of the Greek government “as collaborators of Nazis”. The Greek law which denied taking of their houses and the lands from the Cameria population is a danger step that will have hard consequences for Greek people. The Greek politicians didn't learn from the history of their alias in Balkan in relation with Albanians. The day of a new tragic conflict will be not far due to Cameria unsolved problem. The communists will not wish to happen this thing, but cannot accept nor Greek behavior with our fellow-countryman of Cameria Province.

- **Why come priestess in Albania ?**

Top channel television informed with picture and voices the immoral behaviors of the catholic and orthodox priestess that were working in Albania. They were homosexual and pedophiles. Their actions are registered with hidden camera. The people are asking: Why are coming the Christ missionaries in Albania? For disgraceful acts?

Albania has not need for these men. This “help” of Orthodox and Catholic Church don't promised never from our people.

- **100 days of Berisha's government**

During the election campaign the leader of Democratic Party, neo-Nazi Sali Berisha declared that with coming in power:

- 1-will be halved taxes,
- 2-will decrease unemployment number
- 3-will decrease criminality
- 4-will increase the hours with electric power to 24 ours
- 5- Will increase income to everyone
- 6-will increase salaries of doctors, teachers (2 fold) and the others.
- 7-will liberalists accepting of students in University

After 100 days the situation is other and perspective is yet worse.

- 1- The taxes are same and prices are higher for all goods
- 2-the number of the employment is increased from alimentation of small end middle enterprises as consequence of the electric power crises.
- 3-the criminality is in high level

4-in 100 days only 50 % of times has electric power and other times is darkness in the cities and in villages.

5-the incomes of population are same but economic situation is badly as consequence of increasing of the prices.

6-the salary is the same as before.

7- His government closed 3 new Universities in Dures, Berat and Fier that are open from the socialist government.

The Berisha's government has begun a struggle with local power and has created a terror situation in the country. Coming of gangster criminals from other country in Albania after coming of Berisha in power is a signal very bad. The organization and strengthen of left front is very important in that situation.

- **Visas MAFIA**

On July 2-th, 1990 the West states have open the doors of embassies in Tirana for Albanians to go in Greece, Italia, France, Germany, and other countries. This event has happen the day when Kosovo representatives declared the will of the people for the Kosovo Republic.

The enemies of the Albanian Nation in cooperation with one other putted to eclipse this historical event. The leader of DP Sali Berisha has declared that for passing of about 5 thousand men in Tirana embassies, new opposite in process gave his contribute. Renegade Ramis Alia in other side has declared that the West want to created a civil war in Albania.

The West invited Albanians till March 1991 in these countries to destabilized situation in our country. After this time the west closed the door for Albanians. Thousand yanger that was thinking the West Country like a field with flowers, lost their life in mountains and seas to arrive illegally to the promised paradise. If before 1990 some yangers was suggested from foreign propaganda towards the West, after this time the cause was other. Majority of enterprises and farms were closed and destroyed after the promising of white check from the West to DP. About 1 million worker and peasants now were in the streets without any income. The miscarriage Pyramidal firms, the creature of the Democratic Party in power, brought a tragic situation on 1997. The people lost 2 billion dollars.

The anarchy and the criminal behavior of some danger elements did the life more difficulty in Albania. Thousand people by the sea and mountains left to the West countries. Unfortunately this country exercised inhuman crimes with unlucky Albanians. The Italian military ship "Sibila" blowed the ship with Albanian

refugees in Adriatic Sea to send in the bottom about 150 persons between them women and children. Many other are killed in the border from neighbor's soldiers. Tens others have lost their life in the mountains with snow.

After 1991 in Albania has thrived market of visas to the West countries. This MAFIA now is taking millions dollar every year from unlucky men. Top channel television has demonstrated time after time the functioning of MAFIA in our country. Everyone is now conscious why the West had as love to Albanians yesterday. The bourgeois wanted to do this people slave like other peoples in the world and this aim was realized after 1990...

- **The Berisha's government has exercised pressure to the" independent " institutions**

Prime minister neo-Nazi Sali Berisha has exercised pressure up presidencies, attorney's office and local power. This behavior is very danger because he wants to have everything in his hand like when was president in the years 1992-1997. In this way he created the fascist zing of the life in Albania. That was one of the reasons of people revolts on 1997.

The Berisha's government has stopped the buildings of streets in Tirana with the absurd pretentious when State High Control and People's Advocate were declared in the side of the Local Power of Tirana (Local Power in Tirana is dominated from Socialist Party).

Another signal of the primitive revenge is the provocation of his militants to popular leader of revolts of 1997, Gjolek Malaj. His imprisoning was a hideous crime of DP, but yet more hideous is pressure to the law-court to take longer in prison Mr. Gjolek. That is an attack to people which were getting up against his Nazis-fascist dictatorship with people's son like Gjolek Mala.

- **10 years before and today**

Ten years before on December 22-24-th 1994 in Ischia Italy Comity for reconstruction of Italian Communist Party (m-l) organized an international conference in 100 anniversary of Friedrich Engel's' death. In this activity the communists changed their experience in them countries in construing of their parties in the way that open Marks, Engel's, Lenin and Stalin. Our Party in illegality had his representative which spoke about hard situation in Albania. The conference took some decides. After the Ischias conference are hold some others meetings in Circa, London, Thessaloniqi, Bruksel, etc, where our party has had its representatives.

We think that the situation in the world is critically. A hand of big bourgeoisie has in his hand up 85 % of the world incomes whereas some billion people possess small piece. Do is not that situation in doorstep of the proletarian revolution? We can respond: YES and NO.

Yes because of the objective conditions. No, because of the subjective conditions.

The truth communist Parties will be ready to realize their historical role if begin revolutionary actions in protection of wide masses interests of the workers and the peasants. The workers of Marks, Engel's, Lenin, Stalin and Enver are best guide till the victory. For this purpose the bourgeoisie with its servants are doing an uninterrupted struggle against them.

- **The Albanian communists toward a sole Party**

The Albanian communists put to work to build a sole Party. This wish of two parties and groups is stressed in 15-th congress of PLA on December 25, 2005 in Tirana. In this congress are considered positive the steps of relations with m-l Parties in the world. The participation of our representatives in international meetings where is gave modest contribute in the unification and the coordination of communist movement and anti-imperialist front.

First secretary of PLA was elected comrade Muharrem Xhafa.

- **The Gjirokastra city and Polifonia –treasures of the world culture**

UNESCO has declared the city of Gjirokastra and polyphony (song) the treasures of the world culture. That is with participations that do them with important value for all the world peoples. The men from every side of the globe which have seen this city are astonished with stone buildings from the base to the roof. The streets are with pavement from grandfather, sons and grandsons.

A miracle is and polyphony (Laberia's song). Throughout these songs the people has transmitted the history from generate to generate in the centuries.

Socialist system gave a great contribute to protect and to make more perfect these treasure. For this purpose are invested mental and material energy, but after 1990 this treasure is abandoned. Many houses are destroyed from let without invest in reconstruction. Twenty famous museums after 1990 are closed or robbed for different aims.

- **Solidarity with Spanish communist prisoners in France!**

Albanians communists are taking part in protests together with all communists in the side of seven PCE (r) and GRAPO prisoners; Marcos Martín Ponce, Gema Belén Rodríguez Miguel, Maria Angeles Ruiz Villa, Fernando Hierro Chomon, Joaquín Garrido Gonzalez, Josefina García Aramburu and Marcos Regueira Fernández which are imprisoned in France arbitrarily since 2002 :

**“End the isolation terror!”**

**“Revolutionary will can't be surrendered!”**

**“Revolutionary prisoners are our honor!”**

**“Freedom to prisoners!”**

**“End isolation cruelty”.**

**(This bulletin is prepared in Gjirokastra to inform INTERNATIONAL COMMUNIST MOVEMENT for the developments in Albania)**

**Happy New Year 2006!**
