The **Party of Labour of Albania** (Gjirokastra)

- **Enver Hoxha-dearist leader of Albanian people**

97 years before, on 16 October 1908 had born in Gjirokastra in a patriotic family dearest leader of Albanian people, comrade Enver Hoxha. He after meddle school pursues studies in France where was known with communists and their movement. After come back in fatherland as teacher continued his activity for organization of Communist Party. That was a reality on 8 November 1941 after efforts in the side of Qemal Stafa, Vasil Shanto, Pilo Pelisteri, and other. Comrade Enver in the head of the Party leded Antifascist National Liberation War bringing the liberation of Albania from antifascist curators on 29 November 1944..

In the head of The Party of Labour of Albania and socialist state Enver Hoxha confirmed that socialism can be built and to a small country with himself forces and resources. Renegade Ramis Alia abandoning Marxist –Leninist way gives chance the counterrevolutionary forces to take the power. The Socialist republic of Albania in a short time of restoration of capitalism was transformed from advanced industrial-agricultural land to a market of the west with destroyed industry and agriculture. Today capitalist state has a dept 1 billion and 4 hundred million \$ to imperialist powers. In these circumstances in crises is not only economy but all sectors of the life.

Enver Hoxha has an important role in the struggle against Titoites, Hruschovites and Maoist revisionism and in protection of Marxism-Leninism. He will be forever glorious leader of Albanian people and international revolutionary forces that are fighting for political and social liberation.

Truth communists and his wife, comrade Nexhmie Hoxha with his son Ilir Hoxha, has gave a big contribute in the unmasking of the history falsifications. The books "My life with Enver", "Betrayed friendship", "My father", "Kosovo is Albania", "Against falsificator of the history" , etc., are a valuable material for everyone which want to know the truthfulness.

## **NOTES FOR THE MIDDLE EAST**

**Saturday 3 May 1958**

Today I waited Arabian friends which came in Albania with the invite of our preparing commission for celebration of the Friendship Association Albania-Arabic countries.

**Monday 14 January 1979**

Glory to Iranian People !

The Persian people are a people with antique traditions, with higher culture, with an idealist wide philosophy. From that people have born writers, poets, philosophers and sinters that have astonish the world. The history of Persian people and his distinguished men is one from the glorious parts of the world history. ....

The tradition of this erudition was transmuted from one generation to other. On modern times the Iran was fall prey of imperialism, especially the English imperialism, which was first that discovered the oil in this land, from it took ... for five strivers.

...With coming of Americans (with violence on 1951 -to that place) there however, the lion's piece of the oil was given to USA.

...Middle East is in fire and blaze. Iran now is in vanguard, whereas the other countries of this region are in confusion, in the numberless intrigues.

## **NEWS**

- **Neo-Nazis Sali Berisha came in Power**

On 3 Jun ex-president of Albania neo-Nazi Sali Berisha after a hidden agreement with socialist leader Fatos Nano could to come in Power. In fact Democratic Party will govern and why could to take no majority of the votes throughout the purchase of commissioners in voting centers. The electoral low, prepared under instructions and observations of CEO, done possible that disaster.. Major damages suffered small parties with that low which favorite two big parties and there aleas to do manoeuvres in their advantages..

Neo-Nazis Sali Berisha during time that was President of Albania (1992-97) has a bleach history in power. He imprisoned, tortured and steals away his political opposites. DP with its vote in parliament takes off low Communist Party

(which is split from this to the Party of Labour of Albania, Communist Party and “8 November Party).

Berisha government gave chins Slobodan Miloschevic to take oil from Greece when up it was decide embargo from UN and done traffic of arms. It closed and destroys

factories, miners and all state enterprises to put in life bad fame program of shock therapy, that let without work up 5 00 thousand workers. Majority of them were fall a prey of visa Traficant. Many from them had lost their life in seas and mountains going illegally in west. That was a big tragedy for Albanian people.

Sali Berisha used police force, armed forces, bomber aero plans, poison gas, deleterious maters, and criminal bands against the insurgent people in South after the bankruptcy of pyramidal firms, for which he was himself guarantor. In this time EC was in his side and support him with “Peaceful Forces”. The insurgence stopped when he declared resignation and other required of insurgent people.

Berisha came in power to do what he couldn't to do against revolutionary forces and the national interests.

- **Education system in crises**

For 15 years consecutively pupils and students couldn't get some learning books. Some in deep poverty couldn't bay and that books which can get in market for high prices sometimes up to declared price from the Education and Science Ministry. Many children are follow teaching in nature because their schools are destroyed in period after 1990. In Albania today about 16 % of the younger are unable to write their name. Critical is the condition of the education in villages in heels, mountains and far from the cities.

Another problem in this sector is corruption and low salary for teachers. The level of students is very low because one that has money can bay positive results in examinations. That has demoralized and good students. Every one in Albania is now with heart pain to seeing this situation, especially when is evoking modern education system in the Enver's time.

- **The success of the Party of Labour of Albania in last parliamentary elections**

To an article in newspaper of PLA, “8 Nentori”, secretar of central commity, comrade Muharem Xhafa, has wrote then on 3 July PLA won 3 times more votes than in past election for local Power. That result will be some times mo if the counting process would be correct. CP won about 2 times mo little then past voting. PLA had invite from some years two other Parties to unifying of our programs to had only one M-L Party, but that calling has fall in deaf ears. Hysni Milloshi to be in a critical position now wants to do a maneuver in front of the pressure from his party organizations in base that

are for unification. He decided in last congress to let out every possibility of unifications.

- **Declaration of Communists of Gjirokastra (PLA) for KOSOVO independence**

Gjirokastra communists are supporting vigorously the independence of Kosovo which is in accordance with the will of its people and in interest of the stability in Balkan region. Communists are not only for independence, but and for the rightness of unification with Albania state, from which imperialist big Powers on 1913, in London's conference separated from homeland more than 2/3 of Albanian territory and population.

The self-determination till in full detaching is an elementary rightness that M-L really, and the imperialism formally know for every people and nation.

- **Declaration of Communists of Gjirokastra (PLA) for the legalization of the house sites free**

Gjirokastra communists claim from the government and the Parliament to legalize the house sites of all population which after the year 1990 are moved from first their house sites to other sites as need to had better chances to live after installation of capitalist system in Albania. The prolonging of this act for more than one decade has caused big stress to these men and conflict that have ended with blood many times. PLA seeks from upper institutions to do the legalization of the house sites. Free where that are in heel or in mounting, but no in agriculture land.

- **Declaration of Communists of Gjirokastra (PLA)**

The US imperialism realized by the murderers of FBI in Puerto Rico on 23rd September, 2005. Killing of freedom fighter, Filiberto Ojeda Rios, the leader of the organization "Boricua Popular Army - Machateros", which fights for the independence of Puerto Rico, a colony of USA? He was 72 years old. The US imperialism finds legitimate all kinds of attacks, massacres and tortures to any force which resist against its colonialist and hegemonic interests. But the terrorist essence of the "fight against terrorism" of imperialism was seen clearly in the torture chamber called Abu Ghraib and in the Guantánamo camps. The fight against terrorism is violation in Iraq, children massacred in Palestine, execution in the streets of London. The resistance of Filiberto was a bridge of fraternity between the peoples who resist in Latin America and those who resist in Iraq, Palestine, Kurdistan and all the Middle East. The workers, the toilers, and the oppressed people of the world will ask account from the imperialist

aggressors, at first, from USA! Filiberto Ojeda Rios will live forever in the fight for freedom and socialism! Filiberto Ojeda Rios is immortal!

- **Declaration of Communists of Gjirokastra (PLA) for the massacre of Turkish regime in North Kurdistan**

Before some times Turkish's regime killed 17 militants of MKP(Turkey-North Kurdistan) in North Kurdistan. One from them was our friend Zeki, which was an important contributor to the organization of anti-imperialist movement in Balkan. Those actions of the bourgeoisie can not come back the struggle of North Kurdistan people for self-determination, but are getting up to a high level class struggle towards the victory. 17 martyrs of June's massacre will be immortal !

- **PLA –member of “Conference of Communist and Workers’ Parties of the Balkans”.**

With initiative of Greek Communist Organization (GCO) was organized in Thesaloniqi of Greece Conference of Communist and Workers’ Parties of the Balkans. The Party of Labour of Albania's representative, Laver Stroka, regards this meeting which has objection intensifying of anti-imperialist struggle. In his discussion he stressed : “The reggresiv forces and shortsight politicians in these countries, invested in many way to create a gloomy climate, for the albanians. This policy is attempting to obstruct solving of albanian question in Cameria and in other terytory of ex-Ygoslavia. For this reason albanians are named criminels, bandits, payed killers, etc. For this reason they are against the indipedence of Kosovo . However, the future will bring the transforming of this reality have or no good will the bourgeoizie.

Albanian communists doesn't desire national conflicts in our pennisula, but will not stop efforts for solving of national question according to Marxist- Leninist principes. Friendsheep between nations can be a reality only when they have fredom and the same rightness in the respective countries.

Let be together to destroy the capitalist system, which cannot exists

- “a) without using pressure to minorities*
- b)without extending their territories in disfavour of their neighbors*
- c) without be the servants of imperialist countries, financially, and military.” (J. V. STALIN Vo. 5, 1921-1923, f. 17, Mosque 1953)*
